

## Guide to Florida School Immunization Requirements at a Glance 2010/2011 School Year

Grade	DTaP Series	Polio Series	Measles, Mumps, Rubella 1	Measles, Mumps, Rubella 2 <sup>2</sup>	Hep B Series	Varicella 1 <sup>3</sup>	Varicella 2 <sup>4</sup>	Pneumococcal Conjugate <sup>5</sup>	Hib	Tdap Booster <sup>6</sup>	Completed Certificate Only <sup>7</sup>
Pre-K <sup>1</sup>	X	X	X		X	X		X	X		B
K	X	X	X	X	X	X	X				A (w/ appropriate code)
1	X	X	X	X	X	X	X				A (w/ appropriate code)
2	X	X	X	X	X	X	X				A (w/ appropriate code)
3	X	X	X	X	X	X					A (w/ appropriate code)
4	X	X	X	X	X	X					A (w/ appropriate code)
5	X	X	X	X	X	X					A (w/ appropriate code)
6	X	X	X	X	X	X					A (w/ appropriate code)
7	X	X	X	X	X	X				X	A (w/ appropriate code)
8	X	X	X	X	X	X				X	A (w/ appropriate code)
9	X	X	X	X	X	X				(TD/Tdap)	A (w/ appropriate code)
10	X	X	X	X	X					(TD/Tdap)	A (w/ appropriate code)
11	X	X	X	X	X					(TD/Tdap)	A (w/ appropriate code)
12	X	X	X	X	X					(TD/Tdap)	A (w/ appropriate code)

- Children entering or attending public pre-school are required to have an **age-appropriate** number of DTaP, Polio, MMR, Hepatitis B, Varicella, and Hib immunizations. Public pre-school students aged 3 and 4 years do not usually have all immunizations required for Kindergarten entry, thus their Certificates of Immunization are most often signed in *Temporary Medical Exemption (Part B-Temporary)*. The expiration dates on these Certificates of immunization are typically set at Kindergarten entry or the child's fifth birthday.
- Students entering K-2<sup>nd</sup> should have documentation of 2 measles, 2 mumps, and 2 rubella immunizations, preferably administered as MMR or MMRV vaccine. Students in grades 3 through 12 with a valid DH 680 and 2 measles, 1 mumps, and 1 rubella immunization shall not be excluded. However, if their records are reviewed they should be advised to update their records or receive a 2<sup>nd</sup> MMR immunization to receive the 2<sup>nd</sup> mumps and 2<sup>nd</sup> rubella dose.
- Effective 2001/2002 school year, children entering kindergarten will be required to receive one dose of varicella vaccine. Each subsequent year thereafter, the next highest grade will be included in the requirement. Varicella vaccine is not required if there is history of varicella disease *documented by the healthcare provider*.
- Effective 2008/2009 school year, children entering kindergarten will be required to receive a second dose of varicella vaccine. Each subsequent year thereafter, the next highest grade will be included in the requirement. Varicella vaccine is not required if there is history of varicella disease *documented by the healthcare provider*.
- Effective January 2008, children age 2 to 24 months, entering or attending child care or family day care facilities, will be required to have documentation of age-appropriate pneumococcal conjugate vaccination.
- Effective 2009/2010 school year, children entering, attending, or transferring to the 7<sup>th</sup> grade in Florida schools are required to have one dose of tetanus-diphtheria-pertussis (TDaP) vaccine. Temporary Medical Exemptions for students who have had a Td prior to age 11 are valid for 2 to 5 years.
- Certificates of Immunization for students of any age/grade who are lacking immunizations required for their grade level should be signed in *Temporary Medical Exemption (Part B-Temporary)* with an appropriate expiration date to recall the student for the missing immunizations.
